DETAILED ACTION

1. Receipt of the amendment filed December 30, 2004 canceling claim 89 and amending claims 90-121 to depend from claim 89 is acknowledged. Claims 19-88 and 90-121 are pending in the application and are presented to be examined upon their merits.

Response to Arguments

2. Applicant's arguments filed December 30, 2004 have been fully considered but they are not persuasive.

In response to applicant's arguments, the recitation that the prior art of record fails to disclose a "card-less transaction system where user selected parameters are pre-stored based on user selections and then re-used in subsequent transactions, where the transactions are stored in memory of the system" has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

It appears that the applicant has applied a more stringent standard to the reference than to the limitations of the claims. This is a reversal of their appropriate roles, as the references is used as a whole as a teaching in light of the level of skill in the art. In particular it is respectfully asked that the applicant read the Office Action again in light of the following:

Regarding the use of customized display, this feature was addressed in Morika (see column 5, lines 15+; and col. 2, lines 60+) and in the Office Action on page 5 under claims 29-31. The use of a single screen to enable a user to execute a transaction with a single selection from the single screen feature was addressed again in Morika (col. 2, lines 60+). It is also submitted that a prima facie case of obviousness does not require that the prior art references necessarily recognize or even suggest the problem the applicant attempted to solve [In re Dillion, 919 F.2d 688, 16 USPQ2d 1897 (Fed. Cir 1990)]. Thus the rejections submitted in the previous Office Action are maintained.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
